### PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code Section 413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, effective for medical services provided in an outpatient acute care hospital on or after March 1, 2008, set out the reimbursement guidelines for hospital outpatient services.

This request for medical fee dispute resolution was received by the Division on November 23, 2009.

- For the services involved in this dispute, the respondent reduced or denied payment with reason code:
  - 176 – Modifier 27/TC represents the technical component of services performed.
  - 222 – Charge exceeds Fee Schedule allowance.
  - 791 – Ancillary Service.
  - ANSIW1 – W1 – Workers Compensation State Fee Schedule adjustment.
  - This procedure on this date was previously reviewed.
  - 18 – Duplicate claim/service.
  - 193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly.

- B13 – Previously paid. Payment for this claim/service may have been provided in a previous payment. Previously processed for recommendation.
2. Division rule at 28 TAC §134.403(e) states, in pertinent part, that “Regardless of billed amount, reimbursement shall be:
    - (1) the amount for the service that is included in a specific fee schedule set in a contract that complies with the requirements of Labor Code 413.011; or
    - (2) if no contracted fee schedule exists that complies with Labor Code 413.011, the maximum allowable reimbursement (MAR) amount under subsection (f), including any applicable outlier payment amounts and reimbursement for implantables;”
  3. Pursuant to Division rule at 28 TAC §134.403(f), “The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the *Federal Register*. The following minimal modifications shall be applied.
    - (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:
      - (A) 200 percent; unless
      - (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent.”
  4. Under the Medicare Outpatient Prospective Payment System (OPPS), all services are classified into groups called Ambulatory Payment Classifications (APCs). Services in each APC are clinically similar and require similar resources. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Within each APC, payment for ancillary and supportive items and services is packaged into payment for the primary independent service. Packaged services are considered integral to the primary paid service and are not separately reimbursed. An OPPS payment status indicator is assigned to each HCPCS code. The status indicator for each HCPCS code is shown in OPPS Addendum B, and a full list of status indicators and their definitions is published in Addendum D1 of the OPPS proposed and final rules each year, both of which are publicly available from the Centers for Medicare and Medicaid services.
  5. Upon review of the documentation submitted by the Requestor and Respondent, the Division finds that:
    - (1) No documentation was found to support a contractual agreement between the parties to this dispute;
    - (2) MAR can be established for these services; and
    - (3) Separate reimbursement for implantables was NOT requested by the requestor.
  6. According to the UB04, the requestor billed CPT Code 73030-50 under Revenue Code 320. This CPT code is considered a status “X” code. Status “X” codes are ancillary services, paid as APCs rather than from a Fee Schedule. One of the payment exception codes the respondent used on the EOB dated 08/24/2009 was “176 – Modifier 27/TC represents the technical component of services performed.” Review of the UB04 shows that the requestor did not bill a “27” or “TC” modifier. The MAR is \$167.18. The respondent paid \$83.60.
  7. Consequently, reimbursement will be calculated in accordance with Division rule at 28 TAC §134.403(f)(1)(A) as follows:

APC for CPT Code 73030-50	Outlier Amount	Separate reimbursement for implantables WAS NOT requested under Rule §134.403	APC X 200%	Fee Schedule (CMS x DWC conversion factor)	Less amount paid by Respondent	Additional amount due Requestor
\$83.59	\$0.00	\$0.00	\$167.18	\$0.00	\$83.60	\$83.58

Based upon the documentation submitted by the parties and in accordance with Texas Labor Code §413.031(c), the Division concludes that the requestor is due additional payment. As a result, the amount ordered is \$83.58.

## **PART VI: GENERAL PAYMENT POLICIES/REFERENCES**

Texas Labor Code §413.011(a-d), §413.031 and §413.0311  
 28 Texas Administrative Code §133.305, §133.307, §134.403  
 Texas Government Code, Chapter 2001, Subchapter G

## PART VII: DIVISION DECISION

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is / is not entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$83.58 plus accrued interest per Division rule at 28 TAC §134.130 and §413.019 (if applicable), due within 30 days of receipt of this order.
